Education - Special Education/EIS

Special Education and EDIS

The Department of Defense has two programs that provide services to children with developmental delays and disabilities in accordance with the Individuals with Disabilities Act (IDEA):

Infants and Toddlers (birth to 3 years old)

Infants and toddlers are served through the Educational and Developmental Intervention Services (EDIS 706-545-3835) which is a military, medical program that provides early intervention services to infants and toddlers from birth until three years of age. Children needing specialized services are transitioned at three years to the school age special education program in the Department of Defense Elementary and Secondary Schools (DDESS).

School Age (3-21 years)

Children are served by the Fort Benning Schools special education program and are provided for children age 3 through eighth grade. High School students are served in the adjoining counties. Students must meet the housing eligibility requirements for attending stateside DDESS schools and must meet the Department of Defense criteria for special education services. Special education services are provided within a variety of settings to include self-contained life skills classrooms, resource special education and speech therapy classrooms, and within the general education classrooms. Most students will attend their neighborhood school. Parents of preschoolers (ages 3 and 4 years) who are concerned about their child's development may contact the Special Education Office at 706-545-5520. Some special education services may have to be contracted out to the local school system (Muscookee County School District) due to the low number of students and the specialized services needed, e.g., visually impaired and hearing impaired. If you have a child that may require specialized services and/or equipment (for example, Braille, sign language interpreter, assistive technology), it is recommended you call the Student Services Office at 706-545-5520 to facilitate a smooth transition to the Ft. Benning Schools. If you are moving to Ft. Benning or the adjoining area, be sure to bring a copy of your child's Individualized Education Program (IEP), evaluation and eligibility reports to provide to the new school.

In addition to its medical mission, the MEDDAC has an extensive professional teaching/training mission, and in 1972 established the Army's first Family Practice Residency Program. This 3-year program maintains approximately 30 residents who provide medical services throughout the hospital. Other specialty training programs include the clinical portion of the Army's Physician Assistant Program, a residency in Health Care Administration, Podiatric Surgery internship, training in several enlisted specialties, and numerous clinical rotations or externships conducted in cooperation with local colleges and universities.

The MEDDAC is responsible for the operation of several services outside the hospital. Those located in Soldiers' Plaza include Social Work Service, and the Preventive Medicine Service, which includes Community Health Nursing, Occupational Health, the Preventive Medicine Clinic, and the Health Screening Center.

Dental

The Fort Benning Dental Activity (DENTAC) is a subordinate command of the South East Regional Dental Command (SERDC), located at Ft. Gordon, Georgia, and of the US Army Dental Command (DENCOM), located at Ft. Sam Houston, Texas.

The Ft. Benning DENTAC is responsible for the treatment and maintenance of the oral and dental health of all Soldiers assigned to Fort Benning, and Soldiers

assigned to Ft. Rucker, Alabama. Maximizing dental readiness that supports the timely mobilization and deployment of Ft. Benning Divisional and tenant units, and tenant units at Ft Rucker, Alabama, is our mission and reason for existence. The Ft. Benning DENTAC is also responsible to provide dental support to the CRC (CONUS Replacement Center) for personnel (active duty and Reserve Component military member, and civilians, both GS and contractors) preparing for deployment and the demobilization of redeploying Soldiers. The Ft. Benning DENTAC conducts the Advanced Education in General Dentistry-12 Month residency program for newly graduated dentists. This additional training prepares them to perform the full scope of comprehensive dentistry required in remote or isolated sites where US Army Soldiers live and work.

The Ft. Benning DENTAC consists of a Headquarters element, four local dental clinics, an in processing area co-located in 30th AG on Sand Hill, an In Processing section at Soldier's Plaza, and a subordinate Dental Clinic Command located at Ft. Rucker, Alabama.

After hours emergency dental patients should either report to the MACH Emergency Room or call the ER at 706-544-1502. (Examples of true dental emergencies include: jaw fracture, lacerations, knocked out teeth, severely fractured or displaced teeth, oral swelling that interferes with breathing, fever >101 degrees F from oral infection, uncontrollable hemorrhage, or severe acute toothache pain not controlled by medication.)

DENTAC policy requires that any female seeking after-hours emergency care must have an escort with them at all times.

Family members should seek emergency care from their TRICARE Dental Plan personal dentist. The list of participating dentists in the area is available at all dental facilities. Retirees should seek emergency care from the TRICARE Retiree Dental Plan personal dentist. More information on the US Army Ft. Benning DENTAC can be found at our [web page](#).
